

Cancer Survivorship in Primary Care: Navigating the Journey Beyond Treatment

Wednesday, September 30, 2026

5:30 PM - 7:30 PM

John A. DeQuattro Cancer Center
Manchester Memorial Hospital
100 Haynes St, Manchester, CT

presented by

Dr. Joseph McLaughlin, Medical Oncologist
Dr. Eric Sassu, Primary Care Physician
Karen Fiume, Oncology Nurse Navigator

[CLICK HERE](#) or scan the QR code to register
Registration is required by September 16

Learning Objectives: As a result of participating in this live activity, learners will be able to:

1. Apply survivorship care plans to guide evidence-based post-treatment care for cancer survivors in the primary care setting
2. Conduct comprehensive assessments to identify and monitor common long-term and late effects of cancer treatment requiring ongoing management in primary care
3. Provide age-appropriate preventive health services and implement recommended cancer and chronic disease screening strategies for cancer survivors
4. Select and implement appropriate referrals from primary care to nurse navigation, cancer center supportive services, and palliative care to coordinate comprehensive survivorship care
5. Counsel cancer survivors during care transitions by applying patient-centered communication strategies and integrating lessons learned from survivor experiences to improve coordination between oncology and primary care.

This activity is approved for CE credit for physicians and nurses, as well as MOC for ABIM physicians. Please review [Course Information](#) page for complete information on registration, disclosures, and credits.
