Learning Objectives: *As a result of participating in this Live Activity, participants should be able to:*

1 Describe a unified framework for psychotherapeutic practice that integrates assessment, case conceptualization, and intervention.
2 Differentiate and explain four essential pattern-recognition tools that can be used to identify clinically meaningful patterns in patients' functioning and guide case conceptualization.
3 Demonstrate the application of these four pattern-recognition tools to clinical cases to inform assessment, treatment planning, and the ongoing psychotherapy process.

Accreditation Statement: In support of improving patient care, Hartford HealthCare is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.
