

Not All Chronic Neuropathies Are Chronic Inflammatory Demyelinating Polyneuropathy (CIDP): A Case-Based Approach to Diagnostic Challenges

presented by

Cristina Viguera Altolaguirre, MD

4/23/2026 8:00:00 AM

**Zoom & In Person (Contact Activity Coordinator or
sponsoring department for more information)**

Learning Objectives: *As a result of participating in this Live Activity, participants should be able to:*

- 1 Differentiate CIDP from common mimics using clinical phenotype, electrodiagnostic patterns, and supportive investigations*
- 2 Recognize red flags that should prompt reconsideration of a CIDP diagnosis, including atypical presentations and lack of sustained treatment response*
- 3 Apply a structured, case-based diagnostic framework to improve accuracy and avoid unnecessary immunotherapy in patients with chronic neuropathy*
- 4 Apply a structured, case-based diagnostic framework to improve accuracy and avoid unnecessary immunotherapy in patients with chronic neuropathy*

Accreditation Statement: In support of improving patient care, Hartford HealthCare is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statement: Hartford Healthcare designates this Live Activity for 1.00 *AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with their participation.
