

The Life-Saving Lumbar Puncture: Relieving Intracranial Pressure in Leptomeningeal Disease

presented by

Mu Ji Hwang, MD

10/1/2026 8:00:00 AM

**Zoom & In Person (Contact Activity Coordinator or
sponsoring department for more information)**

Learning Objectives: *As a result of participating in this Live Activity, participants should be able to:*

- 1 Explain how impaired cerebrospinal fluid circulation and absorption in leptomeningeal disease can produce intracranial hypertension and reduced intracranial compliance*
- 2 Recognize the protean clinical manifestations of fluctuating intracranial pressure in leptomeningeal disease*
- 3 Evaluate when lumbar puncture and cerebrospinal fluid diversion may provide urgent and meaningful symptomatic relief in patients with leptomeningeal disease*

Accreditation Statement: In support of improving patient care, Hartford HealthCare is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statement: Hartford Healthcare designates this Live Activity for 1.00 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with their participation.
