Торіс	Subtopic
FUNDAMENTAL TOPICS IN	Anesthesia Machines and Breathing Systems Electrical and Fire Safety
ANESTHESIOLOGY	Mechanical or Assisted Ventilation
	Monitoring
	Anesthetic Gases and Vapors
	General Concepts
PHARMACOLOGY	Intravenous Anesthetics
	Local Anesthetics
	Neuromuscular Blocking Agents
	Asanguineous Intravenous Fluid Therapy during Anesthesia
	General Anesthesia
CLINICAL SCIENCES:	Monitored Anesthesia Care and Sedation
ANESTHESIA PROCEDURES, METHODS, AND	Patient Evaluation and Preoperative Preparation
TECHNIQUES	Perioperative Complications: Types, Prevention, Treatment Perioperative Management of Patients with Chronic Disease States
	Postoperative Period
L	Regional Anesthesia
ORGAN-BASED BASIC AND CLINICAL SCIENCES	Cardiovascular System
	Central and Peripheral Nervous Systems
	Endocrine and Metabolic Systems
	Gastrointestinal/Hepatic Systems
	Hematologic System
	Neuromuscular System
	Renal and Urinary Systems/Electrolyte Balance
	Respiratory System
	Acute Pain Management Anesthesia for Ambulatory Surgery
	Anesthesia for Laparoscopic Surgery
	Anesthesia for Laparoscopic Surgery
	Cardiac Anesthesia
	Chronic Pain Management
	Critical Care Anesthesia
	Geriatric Anesthesia/Aging
CLINICAL SUBSPECIALTIES	Neuroanesthesia
	Obstetric Anesthesia
	Ophthalmologic Anesthesia
	Orthopedic Anesthesia
	Otorhinolaryngology (ENT) Anesthesia
	Pediatric Anesthesia
	Regional Anesthesia Thoracic Anesthesia
	Trauma Anesthesia
	Vascular Anesthesia
SPECIAL PROBLEMS OR ISSUES IN ANESTHESIOLOGY	Electroconvulsive Therapy
	Ethics, Practice Management, and Medicolegal Issues
	Organ Donors
	Physician Impairment or Disability
	Radiologic Procedures
O	Quality Assurance and Performance Improvement
QUALITY IMPROVEMENT	
OVERVIEW OF	Review of Current Topics in Anesthesiology
	Review of Current Topics in Anesthesiology
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology
OVERVIEW OF	Basic Pathophysiology Critical Illness Diagnosis and Management
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orug Interactions, and Indications/Contraindications General Headache and Facial Pain
OVERVIEW OF ANESTHESIOLOGY TOPICS	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orug Interactions, and Indications/Contraindications General Headache and Facial Pain
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Subspecialties
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Subspecialties Organ-Based Basic and Clinical Sciences
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Tireatment of Pain: Other Methods Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Subspecialties Organ-Based Basic and Clinical Sciences Special Problems or Issues
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Orvg Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Trreatment of Pain: Other Methods Trreatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Subspecialties Organ-Based Basic and Clinical Sciences Special Problems or Issues Cardiothoracic Diseases (Pathophysiology, Pharmacology, and Clinical Management)
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Subspecialties Organ-Based Basic and Clinical Sciences Special Problems or Issues Cardiothoracic Diseases (Pathophysiology, Pharmacology, and Clinical Management) Devices
OVERVIEW OF ANESTHESIOLOGY TOPICS CRITICAL CARE MEDICINE PAIN MEDICINE PEDIATRIC ANESTHESIOLOGY	Basic Pathophysiology Critical Illness Diagnosis and Management Specialized Areas Assessment and Psychology of Pain Drug Interactions, and Indications/Contraindications General Headache and Facial Pain Neuropathic Pain Special Cases Tissue Pain Treatment of Pain: Other Methods Treatment of Pain: Other Methods Treatment of Pain: Pharmacokinetics, Pharmacodynamics, Adverse Effects Visceral Pain Basic Science Clinical Science of Anesthesia Clinical Science of Anesthesia Clinical Science of Anesthesia Clinical Science of Special Problems or Issues Cardiothoracic Diseases (Pathophysiology, Pharmacology, and Clinical Management) Devices Foundations of Adult Cardiac Anesthesiology
