PROGRAM OVERVIEW

In this free, ACCME-accredited hybrid in person virtual event session, join the Hartford Healthcare Movement Disorders team to review the most up-to-date information on treatment of the most common movement disorders. We will focus on Parkinson's disease management and updates, as well as Deep Brain stimulation (DBS), neuropsychiatric manifestations, as well as characterize the role of Integrative Medicine, and the use of botulinum toxins in all Movement Disorders.

LEARNING OBJECTIVES

1. Identify the clinical presentations of movement disorders
2. Review current treatment approaches for various movement disorders
3. Discuss the latest medical and surgical options for movement disorders
4. Characterize the role of Integrative medicine in the management of movement disorders
5. Recognize neuropsychiatric manifestations of movement disorders
